

PsySTART Triage for Victims and Survivors

May 10, 2017

Join us as we host the second part of the PsyStart System called End User Training. Come learn about the PsySTART Disaster Mental Health Triage System for Tennessee. Free to all hospitals, clinics, schools, MRC units etc. Enables local response and linkage to resources. It takes less than 30 seconds to complete and is evidence based.

The training will be held on May 10th 2017.

9:00 am-12:00 pm CST

Presented by
Merritt Schreiber, Ph.D
UCLA

Course Description: *PsyStart Triage for Victims and Survivors is a system of rapid triage of psychological impact. The system identifies elements of trauma exposure which may lead to long term impact. Identifying exposure allows for stepped care to manage psychological impact. Geocoded data provides Incident Command with situational awareness for operational area and behavioral health resource management. Prepare yourself and your facility to respond to the psychological impact of disasters.*

Target Audience

- Healthcare Emergency Management personnel
- Behavioral Health and Crisis Services personnel
- First Responder personnel and administrators

Registration: Contact Wanda Roberts or Ken Tartar at ETRHC.HEALTH@tn.gov or Kenneth.t.tartar@tn.gov

Location

AMR/ Rural Metro
10410 Gallows
Point Drive
Knoxville 37931
(Training Room A)
